

Focus Meeting 7 at the IAU GA XXXIII 2027

# One Sky, One Earth

Shared Infrastructure and Frontiers for  
Astronomy, Space Geodesy, and Space Science

*This meeting will explore integrated infrastructure, cross-domain programmes, multi-wavelength reference frames, next-generation observatories, shared standards and data interoperability, and governance and capacity-building across the shared frontiers of astronomy, space geodesy, and space science, bringing together the global communities driving this convergence*
